ANNUAL INDEX

Public Works

Volume/93

January/December 1962

Published by Public Works Publications

200 South Broad Street, Ridgewood, New Jersey

This Volume of PUBLIC WORKS is available on microfilm through University Microfilms, 313 North First Street, Ann Arbor, Michigan.

ANNUAL INDEX

PUBLIC WORKS INDEX

January-December 1962 • Volume 93

Month and page

HIGHWAYS AND STREETS

Bituminous Pavements

Resort City Makes Main Street a Welcome Mat for Visitors — Jan.—77
City-Owned Asphalt Plant Saves Money — Jan.—129
Base Courses: Materials and Construction Methods — Feb.—101
Jet-Blown Asphalt — Feb.—111
Make Your Paving Material Stretch — Feb.—112
AASHO Road Test Results Announced — Jul.—83
New York State Tests Asbestos-Asphalt Paving — Oct.—104

Bridges, Culverts and Tunnels

Highway Maintenance Studies—The Need—The Approach — Jan.—84
Baltimore Harbor Tunnel Pays Dividends in Safety — Feb.—119
Multi-Plate Pipe Supplants Bridge — Feb.—130
Highway Maintenance Programs and Contemporary Skills — Mar.—91
Prestressed Structure Relieves London Traffic — Apr.—125
The Rehabilitation of a 230-Year Old Bridge — May—105
AASHO Road Test Results Announced — Jul.—83
Epoxies Sped Bridge Repairs — Jul.—90
Using Aluminum Alloy as a Culvert Material — Oct.—113
Experiments Evaluate Use of Insulation for Bridge Decks — Dec.—86
Solving a Beaver Dam Problem in a Box Culvert — Dec.—138

Concrete Pavements

Maintaining the New York Thruway — Jan.—71
Highway Maintenance Studies—The Need—The Approach — Jan.—84
Mudjacking and Undersealing Rigid Pavements — Feb.—94
Base Courses: Materials and Construction Methods — Feb.—101
Highway Maintenance Programs and Contemporary Skills — Mar.—91
Skewed Contraction Joints for Concrete Pavements — Mar.—102
Slip-Form Paving Keeps Greene County Out of the Mud — Jul.—67
AASHO Road Test Results Announced — Jul.—83
Runway Resurfacing with a Thin Concrete Overlay — Aug.—109

Construction Methods

Regulating and Controlling Grading in a City — Jan.—60
Small County Does a Big Job for Secondary Roads — Jan.—81
Cut the Cost of Site Clearing — Feb.—87
Base Courses: Materials and Construction Methods — Feb.—101
Development of a Major Tourist Area Brings Unusual Engineering Problems — Feb.—113
Stable Roads at Nominal Cost — Apr.—118
Slip-Form Paving Keeps Greene County Out of the Mud — Jul.—67
Welded Aluminum Used for Large Overhead Sign Structure — Jul.—118
Runway Resurfacing with a Thin Concrete Overlay — Aug.—109
Clearing the Road for Construction — Dec.—84

Design

Highway Maintenance Studies—The Need—The Approach — Jan.—84
Development of a Major Tourist Area Brings Unusual Engineering Problems — Feb.—113
Highway Maintenance Programs and Contemporary Skills — Mar.—91
Skewed Contraction Joints for Concrete Pavements — Mar.—102
Prestressed Structure Relieves London Traffic — Apr.—125
Saline Water Conversion for Entire Municipal Supply — Apr.—190
Services for Motorists on the Interstate System — Jul.—120

Month and page

Drainage

Regulating and Controlling Grading in a City — Jan.—60
Development of a Major Tourist Area Brings Unusual Engineering Problems — Feb.—113
Contoured Paving — May—138
Drainage Problems in an Urbanized Area — Oct.—193

Equipment

Maintaining the New York Thruway — Jan.—71
For Greater Winter Safety of Highways — Jan.—80
"Alert Orange" Increases Safety — Jan.—125
City-Owned Asphalt Plant Saves Money — Jan.—129
Two-Way Radio System Eliminates "Party-Line" Problems — Feb.—84
Mudjacking and Undersealing Rigid Pavements — Feb.—94
Jet-Blown Asphalt — Feb.—111
Traffic Control by Radio — Mar.—150
Competitive Demonstrations—A Basis for Machine Purchase — Apr.—107
Choosing a Pick-Up Broom Filler — Apr.—114
Developments in Traffic Striping — Apr.—117
Sea Water Conversion Plant Produces 275,000 Gallons a Day — Apr.—185
All-Wheel Drive and Steer Grader Speeds Road Maintenance — Jun.—166
Grader is Jack-of-all Trades for City — Jul.—112
Front-Mounted Rotary Broom — Sep.—132

Finance, Legal and Planning

Regulating and Controlling Grading in a City — Jan.—60
Maintaining the New York Thruway — Jan.—71
Highway Maintenance Studies—The Need—The Approach — Jan.—84
Highway Maintenance Programs and Contemporary Skills — Mar.—91
Truck Congestion — Mar.—105
Improving Secondary Roads — Mar.—110
Street Use Regulations for a Snow Control Program — Mar.—174
Municipal Electric Plant Finances Modern Stret Lighting Programs — Apr.—104
Water Plant Adds Efficiency, Stops Flood Hazard — Apr.—132
Motor Vehicle Travel Increases are Reported — Apr.—167
A Joint City-County Street Program — Apr.—170
Role of the Public Works Director in Urban Transportation Planning — Apr.—174
Equipment Expenditures for Counties — May—146
The Critical Path Method of Planning and Scheduling Applied to Highway Work — Jun.—225
Slip-Form Paving Keeps Greene County Out of the Mud — Jul.—67
The Electronic Computer in an Engineering Office — Jul.—88
The Economics of Winter Maintenance — Aug.—86
Modern Housing for Maintenance — Aug.—98
Applications of Industrial Research to the Highway Program — Aug.—162
Transportation Planning — Sep.—110
Cooperative Program for Village Sidewalk Repair — Sep.—124
Processing System Streamlines Contract Document Reproduction — Oct.—188
County Auctions Surplus Equipment — Nov.—160
Highway Planning Financed by CFA Advances — Nov.—168
Local Highway System Planning in Wisconsin — Dec.—72
Clearing the Road for Construction — Dec.—84
A Correlated Method of Highway Programming — Dec.—91

Materials

Base Courses: Materials and Construction Methods — Feb.—101
Make Your Paving Material Stretch — Feb.—112
Developments in Traffic Striping — Apr.—117
Highway Department Holds Seminar on Nuclear Testing — Jul.—104
Salt Is Our Most Effective Weapon — Aug.—84
Rubberized Asphalt Resurfacing Placed at Night — Sep.—109
New York State Tests Asbestos-Asphalt Paving — Oct.—104
Liquid Asphalts — Nov.—80

Month and page

Maintenance Plans and Programs

Maintaining the New York Thruway — Jan.—71
Highway Maintenance Programs and Contemporary Skills — Mar.—91
Roadside Development — Mar.—126
Development in Traffic Striping — Apr.—117
Testing and Applying Pavement Markings — Jul.—101
Modern Housing for Maintenance — Aug.—98
Cooperative Program for Village Sidewalk Repair — Sep.—124
The Increased Responsibility of Highway Maintenance — Sep.—129
A Correlated Method of Highway Programming — Dec.—91
Maintenance on the Pan American Highway — Dec.—96

Parking

Municipal Electric Plant Finances Modern Street Lighting Programs — Apr.—104
Ground Transportation in the Sixties — May—114
Transportation Planning — Sep.—110

Turf and Roadside Maintenance

Maintaining the New York Thruway — Jan.—71
Resort City Makes Main Street a Welcome Mat for Visitors — Jan.—77
Highway Maintenance Studies—The Need—The Approach — Jan.—84
Highway Maintenance Programs and Contemporary Skills — Mar.—91
Roadside Weed Control by Dormant Cane Spraying — Mar.—109
Roadside Development — Mar.—126
Maryland Lets Biggest Landscaping Contract — Apr.—166
Modern Turf Maintenance Practices — Aug.—91
Turnpike Personnel Develop Guard Rail Mower — Aug.—126
Mechanized Maintenance of Guardrail — Oct.—140
Community-Wide Cooperation Boosts Beautification Program — Dec.—94

Two-Way Radio

Two-Way Radio System Eliminates "Party-Line" Problems — Feb.—84
Transistorized Radio System — May—192
Two Statewide Radio Channels — Sep.—107
Sign Controlled by Radio Signals — Sep.—130
Communications for Efficiency — Oct.—128

Safety

"3 E's" Result in Effective Traffic Safety Program — Jan.—105
"Alert Orange" Increases Safety — Jan.—125
Lighting on an Interstate Highway — Jan.—129
Pedestrian Signals Without Words — Feb.—83
Highway Lighting Reduces Tensions — Feb.—100
Rumble Strips on Turnpike Alert Drivers — Feb.—136
Lights Give 1 to 1.5 Footcandles on Road Surface — Feb.—148
Pavement Striping in an Urban County — Mar.—97
"Operation Consideration" — Mar.—150
Color Coding of Entry and Exit Ramps — Apr.—128
Highway Researchers Develop Safer Guard Rails — Oct.—96
Porcelain Enameled Guardrail Tested — Nov.—100

Snow and Ice Control

Maintaining the New York Thruway — Jan.—71
For Greater Winter Safety of Highways — Jan.—80
Toll Road Engineers Confer on Winter Maintenance — Jan.—108
Street Use Regulations for a Snow Control Program — Mar.—174
Maryland Lets Biggest Landscaping Contract — Apr.—166
Town Superintendents Discuss Winter Maintenance — May—111
Tractor-Shovel Solves Snow Handling Problems — Jun.—119
New Techniques Combat New England Winters — Jun.—216
Salt Is Our Most Effective Weapon — Aug.—84
The Economics of Winter Maintenance — Aug.—86
Battling Snow and Ice in an Urban County — Aug.—88

Month and page

Tourists and Snow "Go" Together in Vermont — Sep.—142
Montana's Sectionmen Face Rugged Winters — Oct.—119
Municipal Officials Confer on Winter Maintenance — Oct.—199
Counties Keep State Highways Open in Snowy Wisconsin — Nov.—98
236 Miles of Snow to Clear — Nov.—116
How We Keep Commuters Moving During Snow Belt Winters — Nov.—126
Experiments Evaluate Use of Insulation for Bridge Decks — Dec.—86
Airport Earns a Fine Reputation for Snow Removal — Dec.—98

Stabilized Surfaces and Bases

Small County Does a Big Job for Secondary Roads — Jan.—81
Base Courses: Materials and Construction Methods — Feb.—101
Development of a Major Area Brings Unusual Engineering Problems — Feb.—113
Stable Roads at Nominal Cost — Apr.—118
Economical Street Rehabilitation — Jun.—133
Low-Cost Surface Treatment Eliminates Dust — Aug.—132
Street Improvements on a Limited Budget — Sep.—120
Stage Construction Improves Small-City Streets — Nov.—93

Street Cleaning

Diesel Powered Street Sweeper is Economical — Jan.—110
Refuse Collection and Disposal in Western Europe: Part I—Refuse Collection and Street Cleaning — Apr.—98
Choosing a Pick-Up Broom Filler — Apr.—114
Refuse Collection and Disposal in Western Europe: Part II—Refuse Collection and Street Cleaning—Operating Techniques and Equipment — May—99
Cleaning Up After World Fair Crowds — Sep.—138

Street and Area Lighting

Resort City Makes Main Street a Welcome Mat for Visitors — Jan.—77
Lighting on an Interstate Highway — Jan.—129
Highway Lighting Reduces Tensions — Feb.—109
Lights Give 1 to 1.5 Footcandles on Road Surface — Feb.—148
Municipal Electric Plant Finances Modern Street Lighting Programs — Apr.—104
Demonstration Sites Help Sell Street Lighting — May—120
Globe Cleaner Helps Service Street Lights — Jun.—142
Upgrading a Street Lighting System — Sep.—112
Old Savannah Has a New Look After Dark — Oct.—115
New Fluorescents Give Salt Lake City a Whiteway — Oct.—125
Luminaire Testing — Nov.—85
Dual Purpose Structure for Lights and Signals — Dec.—112
Exotic Downtown Street Lighting — Dec.—145

Surface Maintenance

Maintaining the New York Thruway — Jan.—71
Highway Maintenance Studies—The Need—The Approach — Jan.—84
Mudjacking and Undersealing Rigid Pavements — Feb.—94
Highway Maintenance Programs and Contemporary Skills — Mar.—91
Crack Sealing Program Protects Old Pavements — Jun.—108
Sealing Joints and Cracks — Jun.—110
Cationic Emulsion Holds Aggregate Firmly — Jun.—135
Dust Laying on a County Road — Jun.—168
Epoxies Speed Bridge Repairs — Jul.—90
Rubberized Asphalt Resurfacing Placed at Night — Sep.—109
Street Improvements on a Limited Budget — Sep.—120
Steel Grating Elevates Bridge Expansion Joints — Nov.—172

Surveying Methods

Image Processing of Aerial Photographs — Apr.—168
Photogeology—A Modern Engineering Tool — Jun.—123
Survey and Maps for the Houston Jet Airport — Sep.—137

Traffic Control and Signs

Duties of the Traffic Engineer in the Smaller City — Jan.—76

Month and page

"3 E's" Result in Effective Traffic Safety Program — Jan.—105
Pedestrian Signals Without Words — Feb.—83
Baltimore Harbor Tunnel Pays Dividends in Safety — Feb.—119
Pavement Striping in an Urban County — Mar.—97
Truck Congestion — Mar.—105
"Operation Consideration" — Mar.—105
Traffic Control by Radio — Mar.—150
Color Coding of Entry and Exit Ramps — Apr.—128
Motor Vehicle Increases are Reported — Apr.—167
Image Procesing of Aerial Photographs — Apr.—168
Role of the Public Works Director in Urban Transportation Planning — Apr.—174
Evaluating Pavement Markings — May—93
Ground Transportation in the Sixties — May—114
Airless Spray Equipment for Pavement Marking — May—182
Traffic Control by Television and Remote Signals — Jun.—126
Maintenance and Modernization of Traffic Signs — Jul.—94
Testing and Applying Pavement Markings — Jul.—101
Welded Aluminum Used for Large Overhead Sign Structure — Jul.—118
Computer Simulates City Traffic Conditions — Aug.—96
Signal Warrants and Design in a Small City — Aug.—107
Gunsight Guides Rear Delivery Striping Cart — Aug.—112
Sign Controlled by Radio Signals — Sep.—130
Liquid Asphalts — Nov.—80
Automatic Traffic Diversion Eases London Congestion — Nov.—107

Weed and Brush Control

Maintaining the New York Thruway — Jan.—71
Roadside Weed Control by Dormant Cane Spraying — Mar.—109
Roadside Development — Mar.—126

Highway and Airport Digest

Jan.—120; Feb.—130; Mar.—138; Apr.—158; May—138; Jun.—152; Jul.—112; Aug.—126; Sep.—152; Oct.—140; Nov.—142; Dec.—112

REFUSE COLLECTION AND DISPOSAL

Collection Methods

Refuse Collection in Los Angeles — Jan.—136
A City Dumps Its Dumpsite — Mar.—117
Refuse Collection and Disposal in Western Europe: Part I—Refuse Collection and Street Cleaning — Apr.—98
Refuse Collection and Disposal in Western Europe: Part II—Refuse Collection and Street Cleaning—Operating Techniques and Equipment — May—99
Refuse Collection Equipment Will Pay for Itself in Two Years — May—112
"Operation Cleanup" in Miami — Jul.—76
Disposable Paper Bags for Refuse Collection — Sept.—166
Use of Paper Garbage Containers — Nov.—148
Better Refuse Collection for Less Money — Dec.—70

Incineration

Factors in Incinerator Design — Mar.—123
Refuse Collection and Disposal in Western Europe: Part IV—Refuse Disposal by Incineration — Jul.—71
Inexpensive Method Solves Flyash Problem — Aug.—105
Incinerating Plant Costs — Sep.—122

Sanitary Fill

U-Blade Dozer Speeds Refuse Handling — Jan.—82
A City Dumps Its Dumpsite — Mar.—117
Refuse Collection and Disposal in Western Europe: Part III—Salvaging, Landfilling and Composting — Jun.—139
Realistic Approach Solves Refuse Problems — Aug.—94
Landfill Settlement Rates — Sep.—103
Landfill for a Wheel Loader — Nov.—113

Other Disposal Methods

Loan Advanced for Composting Plant — May—148
How Food Waste Disposers Affect Plant Waste Criteria — Jun.—105
Refuse Collection and Disposal in Western Europe: Part III—Salvaging, Landfilling and Composting — Jun.—139

Month and page

Costs

U-Blade Dozer Speeds Refuse Handling — Jan.—82
A City Dumps Its Dumpsite — Mar.—117
Incinerating Plant Costs — Sep.—122

Refuse Digests

Jan.—130; Feb.—140; Mar.—152; Apr.—142; May—170; Jun.—186; Jul.—122; Aug.—136; Sep.—166; Oct.—150; Nov.—128; Dec.—120

SEWERAGE AND SEWAGE TREATMENT

Finance, Legal and Planning

Did You Ever See a River Warden? — Jan.—56
Labor Costs and Capital Expenditures in Waste Treatment — Jan.—94
How to Enforce an Industrial Waste Ordinance — Jan.—144
Quebec's Approach of Pollution Control — Feb.—68
For Septic Tank Design, Soil Maps Can Substitute for Percolation Tests — Feb.—106
Master Planning of a Sewerage System Pays Off — Mar.—98
Opposite Sides of Ridge in Single District — Apr.—80
How a River Was Reclaimed — Apr.—112
Texas Adopts New Standards for Sewage Treatment — May—123
A Proposal For Taste-and-Odor Pollution Control — Jul.—58
Estimating the Life of Sewage Treatment Facilities — Jul.—79
The Electronic Computer in an Engineering Office — Jul.—88
The Shape of Things to Come — Aug.—58
Dissolved Oxygen Monitoring for Stream Pollution Control — Aug.—93
Multi-Level Government Participation Solves Borough Sewerage Problem — Aug.—102
For the Protection of Water Resources — Sep.—117
An Experience with Pre-Cast Sewer Joints — Sep.—131
Treatment Plant Designed for a Rapid Growth Area — Sep.—139
Fallacies in Selecting Solids Contact Clarifiers by Performance Guarantees — Sep.—174
Augmenting Stream Flow as a Pollution Control Measure — Oct.—92
Clean Streams Require More than Treatment Plants — Oct.—158
Two Bond Issues, Three Contracts, Race Plant Expansion Needs — Nov.—94
Utilities Will Grow to Pace Florida's Boom Towns — Dec.—76

Sewer Systems — Construction

Loading Formulae for Rigid and Flexible Pipes — Jan.—89
One Sewage Plant Serves Two Boroughs — Feb.—99
Elevated Steel Sanitary Sewer Line — Mar.—162
Tunneling Preferred on Relief Sewer Project — Apr.—120
Trench Testing Can Save Lives — Apr.—186
Portable Weirs for Precise Infiltration Measurements — May—91
Multi-Level Government Participation Solves Borough Sewerage Problem — Aug.—102
An Experience with Pre-Cast Sewer Joints — Sep.—131
Sewers Permit Progressive City to Invite Industry — Oct.—197

Sewer Systems — Design

Loading Formulae for Rigid and Flexible Pipes — Jan.—89
Tunneling Preferred on Relief Sewer Project — Apr.—120

Sewer Systems — Maintenance

TV Makes Record of Sewer Interiors — Feb.—138
Television Views 48-Year Old Sewer Line — Apr.—109
Chemical Seal Stops Sewer Infiltration — Nov.—91

Sewer Systems — Storm Drainage

Quebec's Approach to Pollution Control — Feb.—68
Tunneling Preferred on Relief Sewer Project — Apr.—120

Sewage Pumping

Pumping Stations Tailored for Versatility — Feb.—90
"No-Fail" Electrodes for Sewage Ejectors — Feb.—96

Month and page

Prefabricated Variable Speed Pumping Station — Jul.—122
Utilities Will Grow to Pace Florida's Boom Towns — Dec.—76
Sewage Pump Controls Join the Electronic Age — Dec.—100

Sewage Treatment — Design

Automated Chlorination System — Jan.—74
One Sewage Plant Serves Two Boroughs — Feb.—99
For Septic Tank Design, Soil Maps Can Substitute for Percolation Tests — Feb.—106
Complete Sludge Disposal for the Small Town — Feb.—110
Master Planning of a Sewerage System Pays Off — Mar.—98
How Food Waste Disposers Affect Plant Waste Criteria — Jun.—105
Attractive Plant Reclaims Waste Water for a Small Community — Jun.—120
Environment and Its Effect on Sewage Treatment Plant Design — Jun.—196
Low Tension Ignition on Sewage Gas Engines — Jul.—103
Aeration System Increases Lagoon Capacity, Adds Operating Flexibility — Aug.—79
Treatment Plant Designed for a Rapid Growth Area — Sep.—139
Design and Operation of Activated Sludge Plants — Oct.—121
Two Bond Issues, Three Contracts, Race Plant Expansion Needs — Nov.—94

Sewage Treatment — Industrial Wastes

Labor Costs and Capital Expenditures in Waste Treatment — Jan.—94
How to Enforce an Industrial Waste Ordinance — Jan.—144
Quebec's Approach to Pollution Control — Feb.—68
Master Planning of a Sewerage System Pays Off — Mar.—98
How a River Was Reclaimed — Apr.—112
Detergents Removed from Laundry Waste — Apr.—152
A Proposal For Taste-and-Odor Pollution Control — Jul.—58
Mobile Plant for Waste Treatment — Jul.—152
New Filter System for ABS Removal — Dec.—120

Sewage Treatment — Construction

Aluminum Grating in Pump Stations — Jan.—137
How to Prevent Sewage Lagoon Seepage — Mar.—111
Package Plant to Serve 5000 Persons — May—193
Two Bond Issues, Three Contracts, Race Plant Expansion Needs — Nov.—94
Utilities Will Grow to Pace Florida's Boom Towns — Dec.—76

Treatment Methods and Research

Automated Chlorination System — Jan.—74
Complete Sludge Disposal for the Small Town — Feb.—110
Zimmermann Process Installation — Feb.—140
Exciting Prospects for Waste-Water "Renovation" — Apr.—74
Pilot Plant for Waste Treatment Research — Apr.—142
Stream Pollution and Its Impact on Fish Life — May—78
How Pilot Plants are Used in Waste Treatment Research — May—127
New System for Sludge Disposal — Jun.—196
Observations on Waste Treatment in Europe — Jul.—97
Rotor Aeration Displayed at Seattle World's Fair — Jul.—97
Aeration System Increases Lagoon Capacity, Adds Operating Flexibility — Aug.—79
Dissolved Oxygen Monitoring for Stream Pollution Control — Aug.—93
River Aerator to be Tested — Aug.—136
Research Challenges In Water-Pollution Control — Sep.—62
Variables Affecting Anaerobic Digestion — Sep.—113
Augmenting Stream Flow as a Pollution Control Measure — Oct.—92
Better Sewage Effluents—Their Need and Their Attainment — Oct.—109
Checking Water Supplies and Sewage Effluents for Radioactivity — Oct.—117
The Second "Revival" of Chemical Precipitation for Pollution Control — Nov.—70
Versatile Electrometers Measure Low Level Radioactivity — Nov.—87
Tertiary Sewage Treatment: Part I — Nov.—109
Tertiary Sewage Treatment: Part II — Dec.—81
New Filter System for ABS Removal — Dec.—120

Costs

One Sewage Plant Serves Two Boroughs — Feb.—99
Master Planning of a Sewerage System Pays Off — Mar.—98

Month and page

How to Prevent Sewage Lagoon Seepage — Mar.—111
Estimating the Life of Sewage Treatment Facilities — Jul.—79

Sewerage Digests

Jan.—130; Feb.—140; Mar.—152; Apr.—142; May—170; Jun.—186; Jul.—122; Aug.—136; Sep.—166; Oct.—150; Nov.—128; Dec.—120

Industrial Waste Digests

Jan.—148; Feb.—166; Mar.—180; Apr.—194; May—186

Research in Sanitary Engineering Digests

Jun.—204; Jul.—142; Aug.—156; Sep.—192; Oct.—180; Nov.—162; Dec.—140

WATER SUPPLY AND PURIFICATION

Finance, Legal and Planning

Water Fluoridation and Civil Rights — Jan.—87
Public Relations Effort Assures Quality Water — Jan.—101
County Water System Plays Key Role in Suburban Development — Jan.—107
A Report on the Sufficiency of Water Supply Sources — Feb.—81
Water Supply Planning Pays Off — Feb.—108
Organization and Management of Utility Systems — Feb.—156
County Water Systems are a Good Investment — Mar.—120
Tri-Cities Pipeline System Nears Completion — Mar.—164
Water Plant Adds Efficiency, Stops Flood Hazard — Apr.—132
Another Court Upholds Fluoridations — Apr.—184
The Electronic Computer in an Engineering Office — Jul.—88
Motorized Meter Reader — Jul.—130
For the Protection of Water Resources — Sep.—117
Soil Conservation Can Reduce Reservoir Sedimentation — Sep.—125
New Water System Attracts Industry to a Small Community — Nov.—158

Water Pumping

Water Works Expansion in Milwaukee — Feb.—150
Organization and Management of Utility Systems — Feb.—156
Keeping Ahead of Water Demands — Mar.—95
County Water Systems are a Good Investment — Mar.—120
Design of an Iron Removal Plant for a Small City — Apr.—95
Pumping Station Provides Flexible Link in Water System Components — Jun.—130
Tile Brightens Pumping Station — Oct.—101

Reservoirs and Tanks

Precast Wall and Roof Panels Used for Prestressed Concrete Tank — Jan.—112
Water Supply Planning Pays Off — Feb.—108
Reservoir Construction Features "Pritzker" Method — Mar.—115
Small Watershed Construction Speeds Up — Apr.—131
Reservoir Seepage Corrected with Asphalt Lining — Jul.—105
Hillside Reservoir Holds Seven Million Gallons — Jul.—129
Water Storage Reservoir Has Aluminum Roof — Aug.—100
Soil Conservation Can Reduce Reservoir Sedimentation — Sep.—125
Reservoir Has Leak-Proof Lining, Plastic Roof — Oct.—107

Supply Lines and Distribution

County Water System Plays Key Role in Suburban Development — Jan.—107
Building a 35-Mile Water Supply Line to Industry — Feb.—97
Organization and Management of Utility Systems — Feb.—156
County Water Systems are a Good Investment — Mar.—120
Tri-Cities Pipeline System Nears Completion — Mar.—164
Trench Testing Can Save Lives — Apr.—186
More Water is Key to Industrial Expansion — May—108

Month and page

How Water System Improvements Will Match Demands — Jun.—114
New Steel Pipeline Will Turn Water Shortage into a Surplus — Jul.—77
Automatic Devices Protect Aqueducts — Aug.—81
Steel Water Line Perfect After 38 Years of Use — Aug.—146

Treatment Plants — Design and Operation

Trailers Transport Chlorine to Remote Headworks — Jan.—93
Water Supply Planning Pays Off — Feb.—108
Keeping Ahead of Water Demands — Mar.—95
Diatomite Filtration for Potable Water — Mar.—116
Design of an Iron Removal Plant for a Small City — Apr.—95
Water Plant Adds Efficiency, Stops Flood Hazard — Apr.—132
Modernizing a Major Water Plant — Jun.—136
River Source Replaces Well Water Supply — Aug.—116
Power Plant Cooling Water Provides Domestic Supply — Nov.—101
Water Supply Improvements Feature New Coagulator — Dec.—68
The Mechanics of Mixing and Flocculation — Dec.—88

Instrumentation and Process Control

Design of an Iron Removal Plant for a Small City — Apr.—95
No More Water Restrictions — May—96
Modernizing a Major Water Plant — Jun.—136
Remote Registration for Gas and Water Meters — Sep.—178

Treatment Methods and Research

Water Fluoridation and Civil Rights — Jan.—87
Trailers Transport Chlorine to Remote Headworks — Jan.—93
Hydrocyclonic Separations of Solids from Water — Feb.—118
Keeping Ahead of Water Demands — Mar.—95
Diatomite Filtration for Potable Water — Mar.—116
Better Water from a Highly Mineralized Source — Mar.—178
Design of an Iron Removal Plant for a Small City — Apr.—95
No More Water Restrictions — May—96
Civil Defense and Water Treatment — May—164
Water From the Sea — Jul.—86
Checking Water Supplies and Sewage Effluents for Radioactivity — Oct.—117
Versatile Electrometers Measure Low Level Radioactivity — Nov.—87
The Mechanics of Mixing and Flocculation — Dec.—88

Water Supply and Sources

Did You Ever See a River Warden? — Jan.—56
Designing a Catchment Area to Meet Water Supply Needs — Jan.—78
Public Relations Effort Assures Quality Water — Jan.—101
A Report on the Sufficiency of Water Supply Sources — Feb.—81
Building a 35-Mile Water Supply Line to Industry — Feb.—97
Water Supply Planning Pays Off — Feb.—108
Better Water from a Highly Mineralized Source — Mar.—178
A Geological Wonder The Water Supply of Honolulu — Apr.—110
Small Watershed Construction Speeds Up — Apr.—131
No More Water Restrictions — May—96
Aspects of European Water Management — Jun.—111
New Steel Pipeline Will Turn Water Shortage into a Surplus — Jul.—77
Water From the Sea — Jul.—86
River Source Replaces Well Water Supply — Aug.—116
Dallas Adds a Third Watershed Source — Oct.—100
Power Plant Cooling Water Provides Domestic Supply — Nov.—101

Water Works Digest

Jan.—138; Feb.—150; Mar.—164; Apr.—176; May—154; Jun.—170; July—130; Aug.—146; Sep.—180; Oct.—166; Nov.—152; Dec.—130

ADMINISTRATION AND PLANNING

Make Your Slides Do a Better Job — Jan.—98

Month and page

Public Relations Effort Assures Quality Water — Jan.—101
Two-Way Radio System Eliminates "Party-Line" Problems — Feb.—84
Conventions—Blessing or Burden? — Feb.—104
The Selection of Consulting Engineers — Mar.—196
Complaint Record System Improves Service — Apr.—106
How a River Was Reclaimed — Apr.—112
Ohio's Public Works Department Has Varied Tasks — Apr.—122
Miami's Minimum Housing Code — May—118
Economy Studies for Public Works Projects — May—178
The Case for the County Manager — Jun.—116
Odd Experience in Public Purchasing — Jun.—181
Transportation Planning — Sep.—110
Detroit Recruits Engineers — Sep.—133
Public Works and Computer Service Centers — Sep.—186
Planning a Public Works Department Building — Oct.—102
A Town Helps Itself to Flood Prevention — Oct.—130
Small City—Big Problems — Oct.—178
Safe Driving for City Vehicles — Nov.—84
Site Development Program for a Shopping Center — Nov.—105
County Auctions Surplus Equipment — Nov.—160
Movies Tell the County Story — Dec.—79
Community-Wide Cooperation Boosts Beautification Program — Dec.—94
National Public Works Week Observance — Dec.—128

AIRPORTS

Runway Resurfacing with a Thin Concrete Overlay — Aug.—109
Survey and Maps for the Houston Jet Airport — Sep.—137

DAMS & FLOOD CONTROL

Soil-Cement for Channel Stabilization — Jan.—96
Cut the Cost of Site Clearing — Feb.—87
Water Supply Planning Pays Off — Feb.—108
Water Plant Adds Efficiency, Stops Flood Hazard — Apr.—132
Augmenting Stream Flow as a Pollution Control Measure — Oct.—92
A Town Helps Itself to Flood Prevention — Oct.—130

MUNICIPAL POWER PLANTS

Expansion of a Municipal Electric System to Serve a Doubled Demand — Jan.—102
Composite Ten-Year Trends — Jan.—116
Outline Form of Specifications — Feb.—174
Bidders' Qualifications — Mar.—190
Substation Design Considerations — Apr.—86
Water Plant Adds Efficiency, Stops Flood Hazard — Apr.—132
Voltage Flicker — May—68
Mobile Substations — Jun.—90
Power Factor Improvement — Jul.—150
System Planning — Aug.—70
Motor Torque Requirements — Sep.—202
Operating Expedients: Part I — Oct.—56
Operating Expedients: Part II — Nov.—170
Aerial Workshop Speeds Overhead Construction — Dec.—138
Revenue Bond Coverage — Dec.—148

INSECT AND RODENT CONTROL

Dredging for Permanent Mosquito Control — Feb.—117
Operation Vector Control Follows Hurricane Carla — Mar.—128

PUBLIC HEALTH

Did You Ever See a River Warden? — Jan.—56
Water Fluoridation and Civil Rights — Jan.—87
For Septic Tank Design, Soil Maps Can Substitute for Percolation Tests — Feb.—106
Dredging for Permanent Mosquito Control — Feb.—117
